I am highly interested in the oil and gas industry. I am currently pursuing a B.S. in Petroleum Engineering from Texas A&M University. I am seeking internship positions in any upstream-related production.

EXPERIENCE

MAY 2023 – JULY 2023

SUMMER PETROLEUM ENGINEERING INTERN, PEMOCO LTD.

I was a summer intern for an oil well servicing company. My summer project goals were to look at their inventory of skimmer wells and make recommendations for saving money on power costs or generating more cash by increasing production. I would calculate the predicted power consumption and production for each jack and then check to see if the actual power consumption and production matched the predicted values. Then, I would come up with a set of actions that a field operator would do to make the well more energy efficient and/or higher production.

JULY 2022 – AUGUST 2022, JULY 2023-AUGUST 2023

YOUTH DAY CAMP COUNSELOR, KIDZTOPROS

I oversaw 10-20 children, aged 4-10 years old, for 40 hours per week. I was responsible for guiding the children through their daily schedule of courses including coding, robotics, and art. I was responsible for them from 8 AM to 4 PM. This job required leadership, patience, and responsibility.

EDUCATION

GRADUATING MAY 2026

B.S. PETROLEUM ENGINEERING, TEXAS A&M UNIVERSITY

First Year GPA: 3.80

MAY 2022

HIGH SCHOOL, THE KING'S ACADEMY

Cumulative Weighted GPA: 4.2

SAT Score: 1470

HONORS/ACHIEVEMENTS

- Nelson Scholarship (Awarded 2023)
- Varsity football team captain
- Varsity basketball team captain

ACTIVITIES

- Society of Petroleum Engineers
- Aggie Cru Ministry
- Intramural flag football and basketball
