EDUCATION

Texas A&M University (GPA: 3.12), College Station, TX

Petroleum Engineering Major, Business Minor

Expected Graduation: December 2024

I am currently attending Texas A&M and am studying to become a Petroleum Engineer while pursuing a business minor. The engineering program at A&M is highly competitive and pushes me to become a better student and person, daily. I am taking a wide range of classes that allow me to learn not only about my discipline but others as well.

EXPERIENCE

Auto Brazing System - Engineering Intern

May 2023 - August 2023, Greenville, TX

- My responsibilities included creating new parts using SolidWorks, making engineering drawings of parts and assemblies.
- In addition to this I have learned to work with power tools and gain a better understanding of the engineering process.
- This along with working with others has allowed me to gain experience to make me a better engineer.

JB Lawn Care - Landscaper and Owner

May 2020 - August 2023, Rockwall, TX

- During the summertime, I mow lawns and do landscaping around my neighborhood, to stay busy and make money.
- I work by myself, meet with my clients, and estimate project costs. It is a physically tasking job as I mow lawns, trim bushes, lay down mulch and many other duties.
- I enjoy the work and appreciate making lawns look better. I have developed a strong work ethic and improved my customer facing skills.

Bermudez Rentals — Handyman/Manager

May 2020 - August 2023, Rockwall, TX

- My responsibilities/duties include assisting with maintenance issues, collecting rent, and drafting contracts for prospective tenants.
- This opportunity has taught me time-sensitive problem solving and financial management.

Amazing Grades Tutoring — Private Tutor

March 2019 - December 2019, Rockwall, TX

- During my time working as a tutor, I interacted with lots of new people and was exposed to new experiences.
- I worked with young elementary age children and older high school students. My responsibilities included scanning and storing books and documents online, scheduling my private students, and guiding their coursework.
- Through this experience, I learned how I can directly impact others by sharing knowledge, exercising patience, and adhering to a schedule.

Skills

Bilingual (Spanish)
Document translations
Microsoft Suite
SolidWorks
Python
Works well with others
Problem solver
Leader
IWCF Level 1 Program

Extracurriculars

Society of Petroleum Engineers

The Society of Petroleum Engineers is a group organized to advance the careers of its members.

Stem to Stocks Club

(2020-2021)

Club at TAMU meant to help stem students understand finances and assist engineers looking for employment in the finance field.
