---

Currently searching for Full-Time employment in areas relating to Petroleum Engineering. Has various soft skills in teamwork, communications, and problem solving, along with basic technical skills in data management and computer programming.

---

## EXPERIENCE

### DAYTIME UNLOADER & STOCKER

Walmart, Inc. | Baytown, TX

JUNE - AUGUST 2023

A fast-paced, physically demanding position requiring cooperation between team members all throughout the day to complete objectives. On a number of occasions, it was required that new members were to be provided with further training and guidance on how to streamline processes within our department. Quality customer service was a key point whenever required to work out in the store.

### ENGINEERING INTERN

Global Tubing LLC | Dayton, TX

JUNE 2024 - PRESENT

A position where employees were expected to be self-sufficient and manage their time and resources effectively amongst themselves. Made use of Cerberus software in the creation of Coiled Tubing and lead the way on upgrading an abrasion testing machine and executing a project based on it.

---
