PROFESSIONAL EXPERIENCE

Range Resources
Production Engineer Intern

Canonsburg, Pennsylvania
May 2024 – August 2024

- Analyzed 1,600 wells using Cygnet to develop a comprehensive and streamlined leak-by well list, enabling the production departments to optimize the installation of new choke designs
- Leveraged Cygnet to analyze the effectiveness of a trim design on production for 5 wells, comparing actual output to projected reservoir forecast models to assess its success in preventing leak-by
- Delivered an in-depth presentation on the entire lifecycle of the Marcellus Shales, emphasizing key stages such as exploration, drilling, production, and distribution
- Identified 115 wells exhibiting leak-by capable of the new trim design installation, providing essential information to guide the company's decision on implementing the design

All Weather Coats and Paintings
Drywall Finisher

Elsa, Texas
April 2021 – July 2021

- Executed drywall float and tape techniques in various projects across three distinct school districts, ensuring high-quality finishes and adherence to project specifications
- Worked collaboratively within a team to uphold stringent company safety protocols, ensuring a safe and efficient working environment for all team members

LEADERSHIP & INVOLVEMENT

Society of Petroleum Engineers (SPE)
Social Events Member

College Station, Texas
January 2023 – Present

- Successfully assisted and managed 6 events and gatherings per semester for students and faculty members, fostering community engagement and professional networking
- Attended multiple professional development retreats, resume workshops, and general meetings, gaining valuable insights and skills from industry-leading Professional Petroleum Engineers

Society of Hispanic Professional Engineers (SHPE)
Member

College Station, Texas
August 2023 – Present

- Participated in seminars focused on creating personal websites, enhancing financial literacy, personal development, and gaining valuable skills for career and personal growth
- Actively participated in social gatherings and professional development meetings with fellow Hispanic Engineers, fostering a supportive network and promoting collaborative learning and career advancement

Bodybuilding Club
Member

College Station, Texas
August 2023 – Present

- Participated in seminars aimed at educating students preparing for bodybuilding competitions on crucial topics such as nutrition, posing routines, and effective supplement usage
- Supported and guided peers to help them achieve their fitness and competition goals, enhancing their performance
